Profile

I am currently a first year student in computer science at the ENS Rennes in Bruz, France. My goal is to become a computer science teacher in the french higher education, specifically in "Classe Préparatoire aux Grandes Écoles".

Right now, my main domains of interest in computer science are 3D printing, physics simulations, 3D rendering and, on a more theoretical side, cryptography.

I personally love teaching and helping other understand what I'm passionate about, that's why I did tutoring in math and physics during highschool and why I helped a lot of friends during my CPGE years understand the maths and computer science courses.

Education

Bachelor in Computer Science

Sep 2022 - Now

ENS Rennes

11 Av. Robert Schuman, 35170 Bruz, France

Preparatory class MPSI/MP* (mathematics)

Sep 2020 - Juin 2022

Lycée Fabert

12 rue Saint-Vincent, 57000 Metz, France

Scientific Baccalaureate and Abibac (double diploma with Germany)

Sep 2017 - Juin 2020

Lycée Fabert

12 rue Saint-Vincent, 57000 Metz, France

Hobbies

Arts and Crafts :

- 3D Printing
- Miniature Painting

Games :

- Table Top Role Playing Games
- Simulation Games (driving, flying, space, ...)

Music :

- Baritone Saxophone
- Metal
